

STRATEGY FOR SUPPORTING DOCTORAL STUDENTS

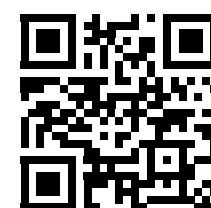

MISSION (WHY?)

Education of globally applicable doctoral graduates capable of independent scientific and creative activity in the fields of polymers, bio-materials, nano-materials and related technologies as well as under the Industry 4.0/5.0 settings, as a way to the long-term development of UNI/CPS potential.

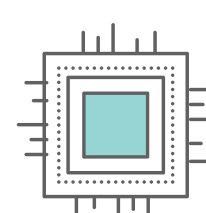

VISION (WHICH WAY?)

UNI/CPS creates the conditions for developing and further improving the high standard of doctoral degree programmes implemented at UNI/CPS; this shall refer to university-wide programmes as well as those conducted in cooperation with the Faculty of Technology.

VALUES (WHAT IS IMPORTANT?)

- FREEDOM OF RESEARCH
- PROFESSIONAL RESPONSIBILITY
- RESEARCH ENVIRONMENT
- CAREER DEVELOPMENT
- THE VALUE OF MOBILITY
- INNOVATION
- EXCELLENCE
- EFFICIENCY
- RELATIONSHIPS WITH SUPERVISORS

STRATEGIC GOALS (WHERE?)

Strategic goals with **respect to work organization** (material and technical pre-requisites), **development of qualification** (knowledge, skills, personal abilities), and **employee motivation** (financial/non-financial incentives) are defined and continuously updated.
